A MARVELLOUS REMEDY
For a Marvellous Age!!

HOLLOWAY'S OINTMENT!!

The Grand External Remedy.

By the aid of a microscope we see millions of pimples on the surface of our bodies—Holloway's Ointment when rubbed on the skin penetrates every organ and inward part. Diseases of the Liver, affections of the Heart, inflammation of the lungs, Coughs and Colds, all to be traced by means of the skin. Holloway's Ointment is known that nothing so far as it is known to any one of the human body, so readily penetrates the pores of the skin as this Ointment. For Bad Legs, Bad Breasts, Wounds and Ulcers, this Ointment has no equal. Sold at the Manufactory of Professor Holloway, 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States of America, the West Indies, and the civilized world, in Pots, at 25 cts., 62 cts., and $1 each.

Piles and Fistulas.

Many persons suffer for years from the painful effects of these complaints, when a few applications of this Ointment would give them perfect relief. Directions for the guidance of patients in every disorder are affixed to each Pot.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Piles
Bad Breasts	Scalds
Bad Constitutions	Scalded Hands
Bad Sore Throats	Sore Heads
Bad Coughs	Sore Nipples
Bad Colds	Stiff Joints
Bad Chiego-foot	Sore Throats
Bad Chilblains	Ulcers of all kinds
Bad Corns	Wounds of all kinds

Sold at the Manufactory of Professor Holloway, 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States of America, the West Indies, and the civilized world, in Pots, at 25 cts., 62 cts., and $1 each.

Purchasers will considerable saving by taking the larger sizes.

Directions for the guidance of patients in every disorder are affixed to each Pot.

BOUNTY LAND!
To Holders of
LAND WARRANTS!!
John L. Hodsdon,

DOW'S BLOCK, Hammond Street, Bangor, would call the attention of those who may have LAND WARRANTS to sell, to the fact that he has orders for large numbers of Land Warrants from parties in the West, who authorize him to pay for the same the highest market value in CASH. Any person having a Warrant may therefore be assured that he can obtain from Mr. J. the most favorable price for it.

To those who desire to
Locate their Warrants,
he would further say that he has skilled and careful agents in the States of
WISCONSIN
AND IOWA,
and in the Territory of Minnesota, who will locate any Warrants on the most desirable lands, without advance pay.

Let all holders of Bounty Land Claims call on JOHN L. HODSDON,

BOUNTY LAND!
B. H. MACE.
Counsellor and Attorney at Law,

WOULD give notice that he is prepared to prosecute all claims to BOUNTY LAND under a recent act of Congress, granting 160 acres to all who have served 14 DAYS in any war since 1790.

Those who have received 40 acres are entitled to 120. Those who have received 80 acres are entitled to 80 more. The Aroostook Soldiers (Militia) are included in the above provisions. Widows of and minor Children of deceased Soldiers, are also entitled.

Mr. M. having procured many Warrants under the former Acts, and being in possession of the Rolls, feels confident that he can give entire satisfaction to all who may place their claims in his hands.

No charge unless successful, and the high est market price PAID to those who wish to sell. Office in Baldwin's Block, 11 1/2 Hotel Square over door to A. B. Patrick's office.

DR. KENNEDY'S DISCOVERY, for sale by
D. F. SARGENT & CO.

KENNEDY'S
Medical Discovery
The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of boils.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure saltrheum.

Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor of has to start. There are no ifs nor ands about it, as ting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is assisted it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept 19, 1853

This is to certify that H. H. HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY
REV. WALTER CLARKE,
Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged, and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

Sold in trial bottles, 25 cents each, large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine

Bowdoinham, 12th, 1853.

To Rev. Walter Clark. Dear Sir—I had bottle of Cough Mixture which I bought of you at Topsham had the desired effect as my wife has had been afflicted with a cough for two years—that bottle entirely removed it.

From Rev. Jesse Hoyt, Lewiston Falls

Rev. CLARKE—Every bottle of the Universal Cough Mixture which you left with me, I have sold—and I have several applications for more. As far as heard from, all have been perfectly satisfied with the medicine. One man, who had a cough of long standing, attended with tightness of the chest and shortness of breath, so that he was hard to keep from wheezing, purchased one large bottle, and before he had taken one third of it, was perfectly cured, and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly.

JESSE B. HAYES.

From Mr. Fletcher Chick, agent for North Dunmont, Maine

Dear Sir—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs of a year's standing, and others who have been confined to bed for months without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mrs. Hubbard, Thorndike, Me

FEBRUARY 1, 1854

To Rev. Walter Clark. Dear Sir—This certifies that I have used two bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief, happily your Universal Cough Mixture was recommended to me. I procured a bottle, which I began to take according to directions on the label, by which in a few days I was entirely cured.

AGENCY FOR BUSINESS
WITH U. S. PATENT OFFICE,
WASHINGTON.
No. 76 State Street, opposite Kilby St.
BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors here not only can obtain their specifications on the most reasonable terms, (generally about 30 per cent less than those of others in the profession,) but avail themselves of the experience of twenty years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries besides being saved a journey to Washington, the usual great delay, there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one dollar*. Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring persons that they cannot employ a person more competent and trustworthy, and more capable of applying their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

[From the present Commissioner.]

"AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office as Solicitor. He is thoroughly acquainted with the law, and the rules and practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."

An Exponent of "National" Democracy

The Richmond Enquirer, one of the southern organs of national hunkerism, has the following precious morceau:

"We mean to show up free society, to show that the little experiment made in a corner of Western Europe has signally failed. Then we will invade our North, where a similar experiment is making, not made. We will point to a thousand premonitory symptoms of ultimate failure, and always adduce the abolitionists themselves.—In fine, we might, from time to time, to institute a searching comparison between slave society and free society—and to prove that the former is the old, almost universal, normal, and natural condition of civilized society. All this we can do with propriety, because the democratic party has always been directly hostile to abolition."

That is, the democratic party always sustains slavery because "slave society is the universal, normal, and natural condition of civilized life." So says the Enquirer.

We might argue, on the other hand, that slave society, as all history teaches us, was the "universal, normal and natural condition" of *barbarism*, in all ages, and that in the providence of God and the progress of the Human Race, slavery has been gradually and universally ameliorated or entirely abrogated, as the countries where it existed have advanced in civilization—if we except, to our shame, these very United States of ours.

But we call attention to the extract only to show how intimately bound to the interests of slavery is the national democratic party, as represented by its own Southern organs. It was to beat down, if possible, the ascendency of this slavery party in the Union, that the Republican movement was instituted—and for that reason we have given it our support, and an honest support. We have no feeling of opposition to the Whig party as it formerly existed, except that it was wanting in strength to subdue this great national pro-slavery party, and that there was little chance of its ever attaining the requisite strength.

REPRIEVE OF A MURDERER.—James Wilson, who, in March, 1841, murdered William Adams in the yard of the State Prison, at Charlestown, Mass., by stabbing him with a knife, was to have been hung on Friday, in the jail yard at Boston. The preparations were all made and the roofs and windows of houses in Cambridge st were covered with spectators—when a reprieve for sixty days, from the Governor and Council, arrived, and was read from the scaffold. It was granted upon petition of Dr Bell and several other physicians connected with Lunatic Asylums, asking for a stay of execution, to enable them to submit certain views and opinions bearing upon the sanity of the prisoner.

The Traveller says this is the first reprieve granted in that State during the present century, after execution had been determined upon.

NEW BUSINESS FIRM.—It will be seen in our advertising columns that a business co-partnership in the dry goods line, has been formed by Messrs. T. G. Stickney and A. H. Roberts in the large and commodious store, No. 5, Main St. Their stock of general dry goods and carpetings is extensive and well selected, and we have no doubt they can offer good inducements to customers.

FUR BARRED DISSENTERS.—During the year ending in July, the Methodists of Great Britain raised for missionary, educational, and other benevolent purposes $950,400, or nearly one million of dollars. Besides supporting their own missions, and building their own churches, the Wesleyans, with other Dissenters, have been heavily taxed in supporting the Established Church of England.

In *Hell Gate* precinct, Walla Walla county, Washington territory, the prohibitory liquor law had one vote, to 14 against it.—*Boston Post.*

A friend says the vote of the fourteen is not surprising to him,—but how that *one* should be found reading in such a "precinct," he cannot understand.

GOOD FAITH.—Our acknowledgments are due to Mr. JESSE SPRAGUE, of Plymouth, for a generous donation of fine grafted fruit, from the produce of his excellent orchard. Some of the varieties are the finest we have ever tasted.

EX Collector Collier, late of San Francisco has obtained decisions in his favor in the New York Circuit Court, which liquidate nearly the whole claim for $100,000 brought against him by the government.

Mr. Mace, living near Plover, Michigan, being jealous of his young wife, shot her with his rifle, and then shot himself dead within a few rods of his house. She was but slightly wounded in the shoulder.

The public exercises in connection with the commemoration of Father Sawyer's 100th birthday, will be held in Central Church in this city, to-morrow Tuesday, Oct. 9th at 1-2 past 2 o'clock P. M.

The Silver Grey Whigs of New York have failed a State Convention on the 23d, to oppose the Republican Union formed by the Whigs and Republicans at Syracuse.

The steamer Kennebec arrived here about 2 o'clock, Saturday morning, and left again at eleven. She made a harbor at Salem on Thursday night, on account of the very rough weather.

The city of Baltimore was visited on Sunday night by a powerful rain storm, which flooded many of the streets and caused much destruction of property.

Executive Appointments—John A. Poor in a Pretence.

Hunkerdom is waking up. John A. Poor, in the State of Maine, has issued his Bull of disapproval of Governor Morrill's recent nominations of Judges of the Supreme Judicial Court, and has issued his orders to his followers throughout the State, to make a demonstration in order to get the Council to reject these nominations. This is decidedly rich. This early engineering for the Hunker possession of power, as the result of the recent election, beats the case of the Irishman in this city, altogether and entirely. He will only stipulate, in hiring a house, that he would not sell grog, would allow no gambling, and permit no disorder; all this "until the new Governor comes in, and then, devil a bit of the bargain."

Mr. Poor is unwilling to wait for Hunkerdom to be installed in power, but is determined to push the credit system by anticipating possession some ninety days! He says he understands that a majority of the Council are opposed to the appointments, and therefore if the Bar of Maine make a demonstration, get up a "row" and inaugurate a John A. Poor rebellion, three Councillors may be induced to refuse to confirm the nominations! It would be exceedingly funny, either such orders as these, for the Maine Bar to get into a ferment and a fuss, in the vain hope of how changing a result probably agreed upon between Gov. Morrill and his Council, for the present Governor of Maine is upon such terms of agreement and confidence with his Council, as to be able to counsel with them in reference to appointments to be made, as well as in reference to their legal confirmation. Did Mr. Poor ever happen to think of such a state of the case?

The nominations which have been made by the Governor, seem to be eminently fit. Few men in the State possess a more methodical, logical, and what may be termed legal mind than Woodbury Davis, and the Bar has no where in it a more growing mind or a abler man. Hunkerism may fret and foam and boil over, but these nominations will be confirmed by the Council, and the result will be a good time, applauded by the people. L

WHY SEWING MACHINE WORK RIPS.—This is a question which will be so *positively* answered, both in the negative and the affirmative, that it may not be amiss to give the public the reasons for such different opinions. The first Sewing Machines that were invented, made a chain stitch, which if once broken, would ravel like a knitting stitch. Some of these Machines are still used, particularly about boots and shoes, salt bags &c., and as long as they are, ripping of Machine work will be natural.

But the later Sewing Machines make a lock-stitch, which cannot be ripped much easier than a back-stitch done by hand, unless done designedly for easy ripping, as in tucks, &c.

Whoever, in purchasing ready made garments, wishes to avoid the chain stitch, can easily detect it by examining the wrong side of the seams. Many may be glad of this information, Mr. Editor, if you will give it a place in your columns, for the simple facts of the case have been very slow in reaching the public mind. D.

The loss by fires in the United States for nine months from January 1, has amounted to $9,563,000. So says the Journal of Commerce.

A FAMILY OF DANIELS. *To the Editors of the Courier and Enquirer.* As there appears to be some little doubt as to the right name of our Candidate or County Commissioner, I would hand you the following particulars of the Bussell family, and if you think them worthy of a place in your paper, would like to see them published.

Daniel Bussell, the father, removed from Vermont with his family of eight children to Richmond, Ontario County, N. Y., in 1813,—he was so much pleased with his own name that he had his children successively christened as follows:

Daniel, Sophia (daughter) married John Bentley, and is now living in Michigan.

Daniel H., the present candidate, Old Hunker, Gerrider.

Daniel V., dead.

Daniel P., M. D., living in Utica.

Daniel, Julia A., (daughter) married Alva Butler, and is now living in Michigan.

Daniel B., Ex Cadal Collector of Penn Yan now living in Brooklyn.

Daniel W., farmer, Richmond, Ontario Co., N. Y.

Daniel D., merchant, Canandaigua, N. Y.

PASSAGE.—We learn by a private letter from Lewiston, dated Oct. 4th, that the Dam recently built on the Androscoggin River, at the place has been washed away by the freshet. The river was very high and still rising, and further damage is anticipated. The log-drivers were having plenty of business. It is feared that the present storm will prove very disastrous on the various streams running through the country.—*State of Maine.*

The Manchester Mirror reports that the late storm resulted in a great freshet. The Merrimac river had risen in some places fourteen feet, and was still rising. It flowed over the streets at both ends of Concord Free Bridge. It carried away the track at Fogg's Crossing, and at Northfield, on the Montreal Railroad, so that no trains passed over it on Wednesday.

FIFTY DOLLARS FOR A PASSAGE.—Mons. Godard, aeronaut, advertises in the Cincinnati papers as soon as his monster balloon America, for aerial voyages at fifty dollars. As an extraordinary inducement for travellers to patronize the America it is announced that "passengers will enjoy a seat in a small house, to which the balloon is attached, and in which a table, containing luxuries, such as wines, cordials, cakes, &c., will be set out on a magnificent scale. Husbands and wives, or a whole family can be taken on this excursion, the pleasures of which can never be described." Two persons—two gentlemen and a lady, have engaged seats for the next ascension.

BEAUTIES OF THE SUB TREASURY SYSTEM.—About noon yesterday, Capt Wainwright, of the U. S. army, drew from the Sub-treasury office in this city $1700 in gold, to pay off the men employed at the arsenal in Watertown. He placed the money in a valise and gave it into the hands of the clerk who drove his wagon, and told him to go to the Tremont House. On arriving there the valise was missing, and it has not yet been found. The wagon was blocked up at the head of State street for a short time, and the valise was probably taken there. *Boston Daily Advertiser.*

ECLIPSE.—A total eclipse of the moon will take place on Thursday, Oct. 25, which will be visible in North and South America. At Boston the first contact with the earth's shadow will occur at 12h. 45m. A. M., when the middle of the eclipse will be at 2h. 45m., and the moon will emerge from the shadow at 4h. 46m. A. M.

[Additional Foreign Items.
[From English Papers.]

Gen. Pelissier telegraphs the following, Sept. 7th:

In their work of destruction the enemy respected the docks (which are magnificent constructions) the establishments in the vicinity, the barracks of Fort Nicholas and the Quarantine Fort.

The Morning Post says the stores and material destroyed or captured at Sebastopol have cost the Russian Government seventy millions sterling, independent of the fleet.

The Emperor Alexander has issued an order of the day to the army, communicating the fall of Sebastopol.

His Majesty, thanks the garrison of Sebastopol for the bravery they have displayed in defending that stronghold to the very last, and declares that he is sure need all the troops of the empire will follow this example in sacrificing life—all—every thing, for the sake of protecting the religion, honor and independence of Russia.

The Emperor adds, that he still relies with confidence upon the firmness and courage of his faithful and attached soldiers, to expel every future hostile attempt to violate the sanctity of the Russian territory, while he excuses the present failure at Sebastopol by saying "there is a fate which is impassable even to heroes."

THE FUTURE OPERATIONS.—With regard to Prince Gortschakoff's intentions with the remainder of his army, or the Allies' designs for exiting him off, we have no positive information but plenty of rumors.

"General Gortschakoff had telegraphed that the Allies were beginning to occupy the south side of Sebastopol. Large reinforcements are pressing forward from Russia, and it was said that the Imperial Guard would be sent to the Crimea. It was still considered doubtful whether the forts on the north side would be held. A report that Prince Gortschakoff intended to evacuate the Crimea, retreating by the way of Perekop, had been positively persisted in, and as positively contradicted. The large number of horses (10,000) that the French were preparing to send, shows that an open campaign was expected."

The Globe Paris correspondent says:

It is expected that a portion of the army will be left in Sebastopol to prepare it for the Winter quarters of the whole of the besieging forces. Before the bad weather sets in, it is said that the enemy will be vigorously attacked in the field; the troops encamped on the Tchernaya attacking the Russians in front, while an army of some sixty thousand men, to be embarked at Kamiesch or Balaclava, and landed a little north of the Belbec, will simultaneously act against their flank.

PARIS, Sept. 18. It is now certain that Marshal Pelissier has decided upon a plan of campaign which is to bring great results. Two divisions of the army are to be sent to the North of the Crimea, and will consist of 25,000 men. General M'Mahon, has left for Eupatoria, to take command of the troops stationed there.—In this manner it is hoped to cut off the Russian army in the field from that which is now stationed on the northern forts of Sebastopol—these operations will be executed with the greatest energy.

The Military Gazette of Vienna gives a letter from Odessa, which states that the Russians at Baktchenarsi are blocking up all the defiles in the mountains, destroying the bridges, and cutting up all the roads communicating with Balaclava, which indicates if they expected to see the Allies undertake a campaign in the interior of the Crimea.

THE FINAL BOMBARDMENT.—The following is an extract of a letter to the London Times, giving an account of the terrible fire opened upon Sebastopol, previous to its fall:

Sept. 5. At dawn, on the morning of the 5th of September, the French opened fire.

Suddenly, along the earthen curtain between Nos. 7 and 8 Bastions, three jets of flame sprung up into the air and hurled up as many pillars of earth and dust, which are warmed into ruddy hues by the horizontal rays of the sun. The French have exploded three *fougasses*, to blow in the counterscarp, and to serve as a signal to their men. Instantly, from the sea to the dockyard creek there seems to run a stream of fire, and fleecy, curling, rich white smoke, as though the earth had suddenly been rent in the throes of an earthquake, and was vomiting forth the materials of her existence. The lines of the French trenches were at once covered; and through the very clouds of Heaven had settled down upon them and were whirled about in spiral jets, in fee-coss, in clustering bunches in columns and in sheets, all commingled, involved together by the vehement flames beneath.

The crash of such a tremendous fire must have been appalling, but the wind and the peculiar constitution of the atmosphere, did not permit the sound to produce any great effect on our camps, in the city, for the same reason, the noise must have been terrific and horrible. The iron storm tore over the Russian lines, tossing up, as if in sport, jets of earth, and dust, rending asunder gabions, and squelching the parapets, of bounding over among the houses and ruins in their rear. The terrible files of iron, about four miles in front, rushed across the plain, carrying death and ruin with it, swept with its heavy and irresistable wings the Russian flanks, and exacted their centre to the core. A valley so startling, simultaneous and tremendously powerful was probably never yet uttered since the cannon found his voice.

The Russians seemed for awhile utterly paralysed, their batteries were not manned with strength enough to enable them to reply to such an overlapping and crushing fire; but the French, leaping to their guns with astonishing energy, rapidity and strength, kept on filling the very air with the hurtling storm, and sent it in unbroken fury against their enemies.—More than two hundred pieces of artillery of large calibre, admirably served and well directed, played incessantly on the line of lines. In a few moments a great veil of smoke—a war cloud rolling dun—spread from the guns over on the left of Sebastopol; but the roar of the shot did not cease, and the cannon side now praised forth in great irregular bursts, now died away into hoarse murmurs, again swelled up into tumult, or rattled from end to end of the line like the file-fire of infantry.

Stone walls went down before the guns at once, but the earthworks seemed to receive shot and shell alike. However, so swift and incessant was the passage of their missiles through the embrasures and along the tops of the parapets, that the enemy had to lie close, and could scarcely show themselves in the rear line of defences. For a few minutes, then, the French had it all their own way and appeared to be on the point of sweeping away the place without resistance, but after they had fired a few rounds from each of their numerous guns, the Russian artillery-men got to work, and began to return our allies' fire. They made good practice, but fired slowly, and with precision, as if they could not afford to throw away an ounce of powder. The French were stimulated rather than impeded by such a reply to their astonishing volleys, and their shot flew with increased rapidity along the line of the defences, and bounded among the houses of the town.

FAMINE.—The corn question is described as assuming a very serious aspect. A rise in bread had created considerable agitation in Paris, and it was thought the government would be obliged to go back to the old tariff, at a certainty, at whatever sacrifice, to make up the difference to the bakers. The Paris correspondent of the New York Commercial Advertiser says:

"It is now certain that the crop of 1855 will be largely insufficient, especially when it is remembered that there is no surplus left from the yield of the last two years. The extraordinary and constant rise during the past winter in the price of flour, has been attributed to the limited supplies of grain sent to mill during the labors of the harvest; but it is evident, now, that it is the natural consequence of a deficit.

RAIN AND THE STORM.—The late storm was very severe throughout New England and New York—the amount of rain which fell being greater than for many months previously. In this section, from three to four inches of rain fell on Thursday and Friday. On Saturday night it rained again powerfully, nearly all night; but cleared off finely on Saturday morning, with the wind at nor'west, and somewhat cooler than for the week previous. The river has risen about seven feet at Gardiner.

The Kennebec has risen six or seven feet at Augusta, on Friday, and was still rising. The Kennebec Dam, the repairs of which are just completed, stood the washet well, at the last account.

We regret to learn that the storm has caused another slide on the Somerset and Kennebec Road at Winslow. The Waterville Mail says:

"The storm has been almost incessant, from Tuesday to Friday morning, during which time a great quantity of rain has fallen. The river is at freshet height. The tunnel on the river railroad is stopped by slides at the deep cut at the east end of Ticonic bridge, but will probably be resumed in a few days at most. There is also damage at other points below.

RAIN IN MINNESOTA.—The St. Paul Pioneer of the 25th ult., says, that the long continued rainy weather is the source of surprise to many of "the oldest inhabitants" of Minnesota. It is not often we have over three days of rain, but it is now eight days since the sun made his face visible. The quantity of rain fallen is large, the rivers are quite high, and we think there can be no doubt but the lumbermen will be enabled to send down their logs in great numbers. The want of lumber has retarded the growth and prosperity of almost every city and town in the territory.

THE STORM.—The copious rains of the present week, raised the Androscoggin river some 7 feet. The logs came down the river in great numbers, and during Tuesday night broke the boats of the ferries at Dixfield and Peru, from their fastenings, and carried them down river. The run of logs was so great as to render it perilous passing at some of the other crossings. *Oxford Democrat.*

CAPTURE OF NOTED ENGLISH BURGLARS.—In New York, on Wednesday, the police arrested Anson Jackson alias William Lees, and Richard Greenwood, both well known English burglars, of the shrewdest character, charged with being fugitives from Providence, R. I. The *Express* says:—"On searching Lees' place in West Broadway, the officers found a cumbersome and complicated iron instrument called a "cutter," calculated for opening banks, iron safes, or any other depository where great power is required. Attached to the "cutter" were bits and augers of various sizes, manufactured of such materials, it is said, that even the hardest steel or other metals cannot resist them. This burglarious implement works with a crank, and operates with such force, that a drill can be sent through a thick plate of iron or steel in a few minutes. It was built expressly for boring into banks, safes and money vaults. The like, on so large a scale, it is said, has never before been seen in this country."

The particular charge on which they were arrested, was that of robbing, on the night of the 18th ult., the store of Mr. George Baker, of Providence, R. I., of $5000 worth of goods, being his entire stock.

STATE REFORM SCHOOL.—This Institution has now two hundred and twenty-six inmates. It is nearly full, being capable of accommodating but nineteen more. The building will soon have to be enlarged, as there are a great many appropriate subjects for it still running at large.—*Argus.*

The steamer *Black Warrior* brought home from Cuba $50,000 from the Spanish government, as an indemnity to Messrs Livingston, Crocheron & Co., for the detention of their vessel (the Black Warrior) at Havana about eighteen months ago.

The Thomaston Journal states that there will be launched during the present month, in Thomaston, about 9000 tons of shipping.—Among the vessels to be launched are five ships ranging from 1100 to 1500 tons.

CALIFORNIA STEAMERS. The time of sailing of the steamships for California via the "Nicaragua Line," will be changed to the 9th and 24th of each month, commencing on the 24th inst.

The new law in Connecticut requires that every voter shall be able to read the Constitution. Nothing is said about understanding it.

Since the commencement of the war, 226,000 men have been shipped from Marseilles and Toulon for the East, and 45,000 from Algeria, Corsica and Italy.

Holloway's Pills, a Certain Remedy for Dropsy. Charles Hutchinson (33) of Burlington, Vt., was for fifteen months a sad victim to this complaint. So bad was he as a part of the time, that the water actually oozed thro' the pores of the skin, and thrice per day change of apparel was necessary. Every time his doctor called he expected to find him dead, and in fact he gave his friends no hopes of his recovery. His sister, who had received great benefit by the use of Holloway's Pills, begged him, as a favor to her, to try them. Fortunately for him he did not refuse, and they soon produced a change for the better. In four weeks he was again attending to business, having thoroughly got rid of the disorders, and in the most excellent health and spirits. These Pills work wonders in liver and bilious complaints.

Crystalotype Portraits.

DAGUERREOTYPES can be accurately copied by the new Photographic process, enlarged to any required size and beautifully colored in Oil, Water, or Pastel. Portraits are obtained from the life by this process, requiring no longer sitting than for a common daguerreotype. thus avoiding the serious inconvenience and fatigue of long sittings. Glass daguerreotypes, a new article of unsurpassed richness and durability, are now, for the first time in Bangor, offered to the public. Their great brilliancy and permanency renders them peculiarly suitable for Pins, Rings, &c. The Public are invited to call and examine specimen at ADDY'S Portrait Gallery, near Main-street, a short distance below the Bangor House

VALUABLE Mill Property for sale.

THE valuable Mill Property formerly owned by Clarkson Martin, in the town of Starky, Yates County, New York, consisting of a Stone Grist Mill, with two runs of stones, a good Saw Mill, Farm house and Barn, and twenty-five acres of Land, will be sold on terms to suit purchasers, at a *great bargain*, to any one desirous of procuring such a location.

The Grist Mill is well built, in good repair, within about two miles of the flourishing village of Dundee, on big Stream, and has an abundant supply of water at all seasons. It is situated in the heart of the best of the rich agricultural country on Seneca Lake, unrivaled for its fertility, and accessible by different Rail roads from all parts of the Union, being but a mile and a half from the Cayuga and Elmira Railroad, and commands a large share of the custom work and flouring business of the surrounding country.

The Saw mill is in good repair, with a Lath Machine thereto attached, and capable of manufacturing a great quantity of lumber and laths during the year. A part of the land is good for agricultural purposes, the balance, lying on the stream, affords, with the dwelling house and out-buildings, a convenient and comfortable home for the mill attendants.

The roads to and from the Mill are convenient and in good order The title is indisputable, and the opportunity is one that seldom occurs.

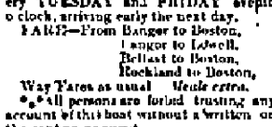
California Steamers,

Carrying the United States Mail.

5th and 20th of each Month

Reduced Prices 100 lbs Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R R



By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers, *without any extra expense*. This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night to open boats to cross at the entrance of dangerous lake and river navigation over rocks and shoals

Arrangements have now been completed so that the regular U S Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *safe and short* passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,

Only 37 1-2 Cents for a Quart Bottle. Only 25 cents for a Pint Bottle.

Purify the Blood and you have health Cleanse the Portisans and the stomach will be pure

Decidedly the greatest Medicine for the Least Money in the world.

The Ladies all like them for they are sure to do them good.

The Root and Herb Bitters have cured the past year,

19,000 cases of DYSPEPSIA,
11,000 cases of LIVER COMPLAINT,
17,000 cases of DYSENTERY,
20,000 cases of BAD HUMOR,
25,000 cases of COSTIVENESS,
13,000 cases of PILES,
12,000 cases of COUGHS and COLDS, and have cured and benefitted more than 100,000 persons besides.

Disagreed them—keepeth all the rest.
Was taught and compounded by great Langley's plan,
Most gloomy Jaundice, trembling fled the field,
By Langley's Bitters Armed at last to yield—
Then dread Dyspepsia left the coast of strife,
Nor dared to face the glorious draught of life!
Pale, Heartsick, Humors, Piles and Costiveness,
These dreaded ills which cause such wretchedness,
By Langley's Bitters, are forced to yield,
While Health and Strength smiled to the field.
Are you temporary sick?—when this medicine is used,
Nor ill the sickness to be it relieved;
Nor need the fond mother feel an hour's alarm,
To the tenderest infant it cannot do harm.
Prudent to take and always does good.

Railway's Regulators.

The Third Great Medical Discovery of Railway & Co.

ONE REGULATOR sufficient to regulate the bowels, Liver and Pancreas, to a healthy discharge of their functions

Two will bring a person nothing from the Bowels, at a regular period of time every day.

Four to six will purge thoroughly all corrupt and acrimonious humors from the alimentary canal.

Important to PILL Takers.

Every one who is in the habit of taking pills will find RADWAY'S REGULATOR the most pleasant, safe, and effectual regulator of the Bowels, Liver, Pancreas, and the most *certain Purifier of the Blood* in use

One of *Radway's Regulators* is superior, in point of medical strength and efficacy, to six of the most popular and best approved cathartic pills

Radway's Regulators.

Radway's Regulators are most carefully prepared from extracts and gums of trees, plants, roots and herbs. There are no pills in use that will act upon the Liver, Pancreas, Bowels, the Salivary Glands and Nerves, so pleasantly and effectually as the R. R. REGULATORS **No pills can be taken for any length of time with the same safety to the constitution; for, instead of debilitating the system by powerful and drastic purging, they act pleasantly upon the bowels, and impart strength to every nerve and tissue of the body.

Regulators vs. Pills.

We are continually asked, What is the difference between Radway's Regulators and ordinary pills?

We answer that pills, as they are ordinarily prepared and sold by different manufacturers, are generally of two kinds—those which operate on the bowels mostly, called purgative pills, and those which excite the secretion of the liver, and are called mercurial or liver pills Radway's Regulators resemble pills me ely in shape, but differ in every other characteristics They act not only on the bowels, but on the liver, skin, pancreas, and kidneys, regulating each organ to a healthy action They are not drastic, and never give pain as most purgative pills do they stimulate the liver without endangering the patient with salivation, as mercurial pills do containing no materials in their composition they are harmless when used for a length of time. They are tasteless, being enveloped in an elegant coating of gum. 1 to 3 regulate, 4 to 6 purge—good in all cases.

As a Family Physic

RADWAY'S REGULATORS are the most innocent, safe, mild and pleasant pills in use. They are a quick and certain cure for Costiveness, Indigestion, Liver Complaint, Kidney Complaint, Jaundice, Head Aches, Nervousness, Melancholy, Diseases of the Bladder

Female Complaints,

Leucorrhœa, Fluor Albus, Whites and Irregularities of all kinds.

Bilious Diseases,

Bile on the stomach, Bilious Colic, Enlargement of the Spleen, and all Chronic Affections of the Liver and Kidneys.

R. R. R. REMEDIES are sold by Druggists everywhere.

For great cures performed in a short time by R. R. Relief, see next week's paper. R. R. R. Remedies act quick—the moment they are taken or applied their health-restoring efficacy is experienced.

G. W. STONE'S

LIQUID CATHARTIC

—AND—

FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THE necessity of such a medicine has long been felt both by the heads of families and physicians The advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person It operates more immediately and efficiently upon the system, and at the same time is infinitely less difficult to administer being quite agreeable to the taste. It not only produces all the effects which physic is required, but completely removes habitual costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, regulates the action of the Liver, frees the stomach from bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

Rheumatism, Neuralgia, Tic Doloureux, Gout, Pain in the Head, Side, Stomach, &c

It may also be relied upon in all cases of the Bowels—DIVENTERY, DIARRHŒA, AND CHOLERA MORBUS, yield at once to its magical influence. Again we repeat, TRY IT!—it needs neither recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success despair not—send to-day at once and be sufferer from Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them.—All Summers will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public

TESTIMONY FROM MAINE

Capt Daniel Woodt, Brooklin, Maine, July 16, 1853, says "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S C At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite At last taking up a newspaper having your advertisement of "Hoofland's German Bitters" in it, I sent for some immediately This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it"

Jos R Hall & Co, Presque Isle, Aroostook Co, Maine, April 24, 1854, say "We here with send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story"

Messrs. Jos. R Hall & Co —Gentlemen—In answer to your inquiries I will state that my daughter, aged about 10 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast From reading a number of cures performed by "Hoofland s German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years—she feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK.

Salmon Brook, Aroostook Co, Me.

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

For sale by respectable dealers and storekeepers generally—and by J. S Ingraham, Bangor, W. B. Morrell, Dexter, F. D Fiske, Lincoln.

DR. J. H. SCHENCK'S

PULMONIC SYRUP,

For the Cure of Consumption.

THE proprietor of this medicine was himself, many years ago, reduced so low as to be given up by his physicians and friends, in the last stage of Consumption When Hopes of ever getting well had fled, he was strongly recommended to use a Syrup made from an old Indian receipt which succeeded in effectually curing him The family physicians and a large number of respectable gentlemen certified to the facts of this case and soon the Pulmonic Syrup obtained a reputation never equalled in that section of the country Creating, as it in a case did, a sensation second to that only of time to be Schenck was noticed up on his many similarly afflicted, to whom he administered the syrup with the same beneficial results In fact, such was the notoriety of this medicine that eminent physicians had their attention drawn toward the rising reputation of it, from hearing witness of its curative powers, and freely extended the hand of friendship and encouragement to Dr Schenck, and introduced the medicine to the public and used it in their daily practice

No other measure or potion upon the system so the manner that the Pulmonic Syrup does It produces ag. daily action upon the morbid parts, by purifying them for a diseased, it promotes the expectorations, allays the cough, opens the matter on the lungs, and when it is discharged it heals the opening that the breaking of the tubercles or abscess produces, and the lungs become sound and resume the performance of their natural functions, it also soothes the irritated portion of the lungs and other organs, and thus restores these parts to health A superior property the medicine possesses over all others is, that it contains no opium, calomel, or any other deleterious medicine

In 1841 Dr Schenck removed from Pemington New Jersey, to Philadelphia, and commenced the practice of his profession, where he soon acquired a reputation excelled by none, in curing a disease that has heretofore been deemed incurable, and he has since then daily presented to the world incontestable evidence of his success

Both of his parents died with Consumption, which appears to have been an hereditary disease with his father's family All his brothers and sisters except one, died early of this disease, none of them, but the one brother, reaching the age of twenty.

Thus left nearly the last of his family, he naturally felt some alarm, as one after another were consigned to the silent tomb by this fell destroyer.

VOLUNTARY TESTIMONY.

We, the subscribers, residents of Pemington, New Jersey, to Philadelphia, and commenced the do hereby certify that we are well acquainted with Dr J H. Schenck He was attacked by disease, which, as we believe, terminated in Pulmonary Consumption, under the operation of which he was reduced so low as to be unable to leave his bed for a long time, and to all appearance was past recovery. He is now perfectly well—his cough and fever have left him, and we feel justified in declaring it as our belief that these salutary effects have resulted from the use of the Pulmonic Syrup.
